Two great companies join forces!

On September 1, 2011, Process Instrumentation Inc. became part of ETA Associates, creating ETA Process Instrumentation.

Process Instrumentation Inc. has been a leading manufacturer's representative serving the Industrial Instrumentation marketplace in New England since 1982, with products ranging from pressure, temperature, flow, level, and analytical to data acquisition, recorders, calibrators, and calibration/start up service.

ETA Associates has been a manufacturer's representative providing technical sales and service to the process control, pollution control, quality control, environmental control, industrial hygiene/safety, HVAC, and OEM markets; primarily in the product areas of analytical instrumentation, related components, systems and environmental chambers - since 1971.

Customers of ETA and Process can now access the broadest range of leading instrumentation companies in New England, with an unparalleled level of experience and technical support behind them. In addition, we can provide on-site installation, start-up, and calibration services for all of our product lines.

The two companies will now be called ETA Process Instrumentation. Please visit our web site for a full listing of the companies and products we represent - www.etapii.com
